WASHINGTON 20545

March 26, 1974

Jim:

Is the enclosed outline sufficient to meet your request for a preliminary plan of attack?

I have not included any comments relative to DHEW because I don't have a good feel for the issues to call to their attention at this time. We will want to check with them when we are farther along.

Also, Dave Bruner has been calling such people as Leon Jacobson and Hy Friedell for information. The calls have drawn a complete blank. These preliminary contacts may be disadvantageous to us. He told Bill Burr that the Chairman asked him to look into the matter so that this activity may be pursuant to her general instruction.

Sid

Enclosure:
Outline

Jim, Sid would like your comments and/or approval to proceed according to the outline which he has attached. In view of the time schedule, he should start moving. If Bruner is making phone calls, he should be called off! It will only "muddy" the water.
